

Beat The Heat Fan Drive

Please help support LifeCare Alliance by helping donate fans for their "Beat the Heat" program.

The purpose of the "Beat the Heat" fan collection and distribution program is to ensure that people who are at-risk of heat stroke or heat exhaustion in their homes receive new fans.

You can drop off the fans at the Township Administration Building (6200 Eiterman Rd. Dublin) in the entryway marked Town Hall (please do not drop off donations at the Fire Stations).

Staff and/or volunteers of LifeCare Alliance will retrieve the fans and transport them to a local facility to distribute them to individuals and families who need them most.

For more than 20 years, the "Beat the Heat" program has been providing this critical service to the Central Ohio community and has distributed more than 20,000 fans.
