

Car Seat Installation

Make an appointment to have your child car seat properly secured in your car. Car seat installations are conducted by National Child Passenger Safety Board-certified technicians. Appointments are required and take about 30 minutes per car seat.

Appointments are offered Tuesdays and Thursdays at 6200 Eiterman Road, in Dublin (Township Administration).

Please make an appointment for each seat using the calendar below. Seats for which there is no scheduled appointment will not be fitted.

If you cannot find an appointment that will fit your schedule, you might be interested to review our three child car seat fitting videos.
