

Blended Learning – CPR, First Aid, & CPR & First Aid

Blended Learning for CPR & AED Certification:

This blended learning option is for those who have completed the online course Heartsaver® CPR AED (\$15) on the American Heart Association (AHA) website. Once the online portion has been completed, you can schedule your skills check (hands-on portion). We ask kindly that you follow local COVID-19 protocol.

Developed by the American Heart Association, this class addresses pediatric and adult CPR, recognizing and relieving a choking victim, recognizing the signs of a heart attack, and how to use an AED.

Blended Learning for First Aid Certification:

This blended learning option is for those who have completed the online course Heartsaver® First Aid (\$15) on the American Heart Association (AHA) website. Once the online portion has been completed, you can schedule your skills check (hands-on portion). We ask kindly that you follow local COVID-19 protocol.

Knowledge of basic first aid skills can come in handy in just about any setting or situation, including camping, field trips, sport events, on the job, as well as your own backyard. Students will learn skills such as how to treat bleeding, sprains, broken bones, shock and other first aid emergencies, and how to respond to and manage an emergency until EMS arrives.

Blended Learning for CPR & First Aid Certification:

This blended learning option is for those who have completed

the online course Heartsaver® First Aid CPR AED (\$19.50) on the American Heart Association (AHA) website. Once the online portion has been completed, you can schedule your skills check (hands-on portion). We ask kindly that you follow local COVID-19 protocol.

Developed by the American Heart Association, this class addresses pediatric and adult CPR, recognizing and relieving a choking victim, recognizing the signs of a heart attack, how to use an AED and first aid. Knowledge of basic first aid skills can come in handy in just about any setting or situation, including camping, field trips, sport events, on the job, as well as your own back yard. Students will learn skills such as how to treat bleeding, sprains, broken bones, shock and other first aid emergencies, and how to respond to and manage an emergency until EMS arrives.
