

Smoke Alarm Battery Installation

Do you need help changing the batteries in your home's smoke alarms? Call 614-652-3920 Monday through Friday between 8:00 am and 4:30 pm. Provide your name and Washington Township/Dublin address. We will alert our on-duty first responders of your request. Appointments are not available, but staff are often able to fill requests the day they are placed.

Purchase one 9-volt battery for each smoke alarm. Replace smoke alarms that are 10 or more years old. Most smoke alarms manufactured today have a 10-year, sealed battery so battery replacement will occur when the unit is replaced.
